

# ***Volgograd state medical university***

***The Volgograd State Medical University is one of the most famous and highly reputable higher medical institution both in Russia and abroad. It is proud of its highly-qualified teaching staff, advanced researchers and experienced physicians whose names are world-famous. It is currently headed by the prominent Russian scientist, professors of the Russian Academy for Medical Sciences.***

***The Volgograd State Medical University was one of the first to start providing educational services to international students and has accumulated immense experience in training medical students. At present training is provided in two forms – in Russian and English Medium. The English-Medium Courses are delivered by professors having teaching experience in foreign universities or actively participating in exchange programs. Training provided at the University meets the highest international standards. All the courses operate in a hard-working and creative atmosphere and combine intensive training in the theory of medicine with practical activities***

***The University recognized by the World Health Organization (WHO) and UNESCO, The university degree is accepted by the medical council of India (MCI). . It means that our graduates can get a job or practice at any country after passing national exam if necessary.***

***There is a special department (Department for International Students) within the University which is in charge of various aspects of academic activities and everyday life of overseas students. We promptly lend a hand to our students in solving any problems.***
